Specific EPL licence monitoring conditions for noise	M4.5c offer attended noise monitoring for a complainant. If they accept then carry out the monitoring M5.1 monitor noise and vibration from construction work and especially OOHW E1.2a(i) noise monitoring during representative stages of OOHW		

monitoring location	number of times monitored during the months of April, May, June	attended or continuous monitoring	event based monitoring (Y/N) Event could be OOHW or a complaint	Parameter eg. Leq (15min)	min value dB(A) for month	max value dB(A) for month	noise goals / targets dB(A)	comments
Riverpark Drive	1	Attended	Y	LAeq (15min)		50.9	47 (predicted noise levels for possession)	OOHW May possession. No construction noise was audible during monitoring even though the monitored values were higher than the predicted levels
Speed St	1	Attended	Y	LAeq (15min)		55.5	39 (predicted noise levels for possession)	OOHW May possession. No construction noise was audible during monitoring even though the monitored values were higher than the predicted levels
