- Monitoring Location: 3 Baxter Rd 1 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic along Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 34 Baxter Rd 1 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive audible during the monitoring period.

- Monitoring Location: 83 Hardie St 1 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 85 Hardie St 3 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 1283 Botany Rd 4 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 105 Baxter Rd 2 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive was audible.

- Monitoring Location: 1279 Botany Rd 4 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive audible during the monitoring period.

- Monitoring Location: 87 Hardie St 1 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 106 Hardie St 2 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 85 Hardie St 3 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 105 Hardie St 2 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 83 Hardie St 1 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive audible during the monitoring period.

- Monitoring Location: 106 Hardie St 2 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 87 Hardie St 1 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 1279 Botany Rd 4 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive audible during the monitoring period.

- Monitoring Location: 106 Hardie St 2 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 85 Hardie St 3 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 1283 Botany Rd 4 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 105 Baxter Rd 2 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive was audible.

- Monitoring Location: 1279 Botany Rd 4 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive audible during the monitoring period.

- Monitoring Location: 85 Hardie St 3 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 106 Hardie St 2 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 87 Hardie St 1 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 106 Hardie St 2 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 87 Hardie St 1 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 106 Hardie St 2 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 87 Hardie St 1 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 106 Hardie St 2 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 87 Hardie St 1 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 106 Hardie St 2 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.

- Monitoring Location: 87 Hardie St 1 Attended
- Event based monitoring: Works were intermittently audible.
- Observation: No community noise complaint received.
- Continuous road traffic on Joyce Drive and Botany Road audible during the monitoring period.
