

M1 Pacific Motorway Extension to Raymond Terrace – Black Hill to Tomago

EPL Monthly Monitoring Report – May 2026

Document Number: M1RTBH2T-JHGM-6003-EN-RPT-200100-EPL Monthly Monitoring Report - May 2026

Revision Number: 00

Issue Date: 12/06/2026

Revisions

Revisions

Draft issues of this document are identified as Revision A, B, C, etc. Upon initial issue (generally Contract Award) this will be changed to a sequential number commencing at Revision 0. Revision numbers will continue at Revision 1, 2, etc.

1. Introduction

M12RT will extend the M1 Pacific Motorway from Black Hill to the Pacific Highway at Raymond Terrace, about 15 kilometres, bypassing Beresfield, Hexham, and Heatherbrae (refer Figure 2-1). M12RT traverses the City of Newcastle and Port Stephens Council local government areas (LGAs). The suburbs of Beresfield, Tarro, Heatherbrae, and Raymond Terrace are located to the north of the

Project, with Black Hill, Hexham and Tomago located to the south of the Project. M12RT will provide a critical link in the National Land Transport Network, particularly for the coastal Sydney to Brisbane corridor.

M12RT includes the following key features:

- Black Hill: connection to the M1 Pacific Motorway
- Tarro: connection and upgrade (six lanes) to the New England Highway between John Renshaw Drive and the existing Tarro interchange at Anderson Drive
- Tomago: connection to the Pacific Highway and Old Punt Road
- Raymond Terrace: connection to the Pacific Highway
- A 2.6 kilometre viaduct over the Hunter River floodplain including new bridge crossings over the Hunter River, the Main North Rail Line, and New England Highway
- Bridge structure over local waterways at Tarro and Raymond Terrace, and an overpass for Masonite Road in Heatherbrae
- Connections and modifications to the adjoining local road network
- Traffic management facilities and features
- Roadside furniture including safety barriers, signage, fauna fencing and crossings, and street lighting
- Adjustment of waterways, including at Purgatory Creek at Tarro and a tributary of Viney Creek
- Environmental management measures, including surface water quality control measures
- Adjustment, protection and/or relocation of existing utilities
- Walking and cycling considerations, allowing for existing and proposed cycleway route access
- Permanent and temporary property adjustments and property access refinements
- Construction activities, including establishment and use of temporary ancillary facilities, temporary access tracks, haul roads, batching plants, temporary wharves, soil treatment and environmental controls

The M12RT delivery strategy includes construction via two collaborative Design and Construct (D&C) contracts:

- Stage 1 - Construction - Southern Package (BH2T), delivered by the John Holland Gamuda Australia Joint Venture (JHGA JV)
- Stage 2 - Construction - Northern Package (Heatherbrae Bypass), delivered by Seymour White.

JHGA JV will deliver the southern contract This report covers works for that southern contract package works.

2. Environmental Protection Licence and Reporting Requirements

John Holland Gamuda JV obtained the Environment Protection Licence (EPL No. 21808) from the NSW Environment Protection Authority for the M1 Motorway Extension to Raymond Terrace – Black Hill to Tomago in September 2023. The licence is for construction works relating to Road Construction as defined under Schedule 1 of the *Protection of the Environment Operations Act, 1997* (POEO Act).

The licence describes monitoring and reporting requirements for construction works, and specifically as they relate to:

- Water discharge limits
- Noise limits

The following report details environmental monitoring undertaken during this reporting month conducted in accordance with the EPL.

The EPL and current variations can be found by following the links below to the EPA's website:

[ViewPOEOLicence.aspx \(nsw.gov.au\)](http://ViewPOEOLicence.aspx (nsw.gov.au))

[ViewPOEONotice.aspx \(nsw.gov.au\)](http://ViewPOEONotice.aspx (nsw.gov.au))

3. Water Monitoring

There was 145.4 mm rain recorded at the Project's Weather Station (Main Compound) during May 2026. As per condition M2.3 discharge water quality monitoring is recorded as 'Special Frequency 1' as defined within the EPL.

During May, a prolonged rainfall event occurred from the 13th May through to the beginning of June. As a result of the 5-day rolling rainfall event entering the month of June, there were no dewatering discharge permits granted during the month of May.

4. Noise Monitoring

Noise monitoring was undertaken during the May 2026 reporting period. Construction noise monitoring results were above NML in some cases however due to background noise levels (heavy continuous traffic M1/New England Hwy/Pacific Hwy/Tomago Road) and inaudibility of construction noise at sensitive receivers were compliant during this period. Where the predicted noise level was exceeded, this was result of extraneous activities (traffic passing etc). Construction noise was in line with the predicted levels. Table 2 contains detailed noise monitoring results.

Table 1: Noise Monitoring Results

Monitoring Location (Noise Catchment Area, Street, Suburb)	Date	Time (24hr)	Attended or Continuous Monitoring	Parameter	Goal/Target dB(A)	Actual dB(A)	Comments
NCA01A 23 Cahill Cl, Black Hill	05/05/2026	08:40	Attended	LAeq15 Minute	61	52.90	Compliant. Dominant noise source was caused by traffic noise on M1 and local fauna audible. Project related noise was not audible.
NCA01B 24 Walter Pde, Black Hill	05/05/2026	09:03	Attended	LAeq15 Minute	47	49.70	Construction contribution compliant. Constant low level background noise from surrounding fauna and local cars, including M1 and New England Hwy. No audible construction noise.
NCA03 54 Weakleys Dr, Beresfield	05/05/2026	09:35	Attended	LAeq15 Minute	76	70.40	Compliant. Constant flow of heavy traffic along Weakley's Dr. No audible noise from project related works.
NCA04A 1/15 Quarter Sessions Rd, Tarro	21/05/2026	09:05	Attended	LAeq15 Minute	61	73.70	Construction contribution compliant. Heavy traffic noise from New England Highway (NEH) approximately 74 – 78.4dB. Construction noise was audible when NEH traffic was minimal. Plant movements (excavators walking or bogies unloading) spiked the Noise Monitor for short increments to 66-68dB and not attributed to effecting LAeq.
NCA04B 22 Lenox St, Beresfield	21/05/2026	08:16	Attended	LAeq15 Minute	55	57.60	Construction contribution compliant. Infrequent cars passing monitor and background noises were continuous throughout monitoring period. No audible noise from project related works.
NCA05A 11 Anderson Dr, Tarro	05/05/2026	10:00	Attended	LAeq15 Minute	65	62.00	Compliant. Constant traffic on New England Highway and Anderson Drive pumping station renovations. No audible noise from project related works.

Monitoring Location (Noise Catchment Area, Street, Suburb)	Date	Time (24hr)	Attended or Continuous Monitoring	Parameter	Goal/Target dB(A)	Actual dB(A)	Comments
NCA05B 49 Beresford Ave, Beresfield	21/05/2026	08:40	Attended	LAeq15 Minute	51	59.50	Construction contribution compliant. Constant cars passing monitor along with background noises throughout monitoring period. No audible noise from project related works.
NCA06 61 Red Bill Dr, Woodberry	05/05/2026	10:25	Attended	LAeq15 Minute	48	56.20	Construction contribution compliant. Infrequent traffic and garbage collection for residents passing by monitor during monitoring period. Fauna noises also observed during monitoring period. No audible noise from project related works.
NCA07 51 New England Hwy, Tarro	21/05/2026	07:40	Attended	LAeq15 Minute	53	51.70	Compliant. Audible noise from multiple activities at AS3, however did not go over PNL. New England Highway traffic was audible constantly as background noise across the monitoring period.
NCA08 213 Maitland Rd, Hexham	25/05/2026	15:30	Attended	LAeq15 Minute	51	77.1	Construction contribution compliant. Constant heavy traffic on New England Highway. No audible noise from project related works.
NCA09 838 Tomago Rd, Tomago	25/05/2026	15:20	Attended	LAeq15 Minute	62	67.30	Construction contribution compliant. Constant traffic on Tomago Road frequently breaking due to intersection lights changing. No audible noise from project related works.
NCA14A 2137-2171 Pacific Highway, Heatherbrae	25/05/2026	14:40	Attended	LAeq15 Minute	64	66.00	Construction contribution compliant. Constant passing traffic on the Pacific highway effecting sound levels during monitoring. When breaks in traffic occurred plant leaving site was audible however remained below PNL.
