KLV L1: 1 Newbury Avenue, Kellyville. Standard Hours. Works occurring included the use of 1 x chainsaw, 1 x tree chipper, 1 x bogie truck this was completed within a 3 hour window. Old Windsor Road traffic adjacent to works was moderately intrusive. When the tree chipper was in use it was the dominant noise source.

*For these high impact works to occur additional mitigation measures were in place - noise barriers installed, respite periods enforced, noise monitoring undertaken.

KLV L1: 1 Newbury Avenue, Kellyville. OOH Shoulder Period. Works occurring included the use of 1x excavator moving concrete barriers. Traffic along Old Windsor Road was the dominant noise source whilst the excavator was audible at times during traffic respite.

*For these high impact works to occur additional mitigation measures were in place - Noise barriers installed, specific notification, verification monitoring undertaken and letter box drops.

KLV L2: 15 Kentwell Crescent, Kellyville. OOH Shoulder Period. Works occurring included the use of a concrete pump and vibrator. Traffic on Old Windsor Road was the dominant noise source. A letterbox drop and noise monitoring was implemented as additional mitigation measures for the works.

SH L1: Carrington Pre-School, 36 Carrington Road, Castle Hill. Standard Hours. Works occurring included Craneage, excavation work s, rock hammering, piling and material movement trucks within haul roads. Traffic along Carrington road is clearly audible - continuous traffic. Site noise is noticeable but is not the dominant noise source. During traffic respite site noise is at 55dbA. Rock hammering during traffic respite reaches 60.5dbA. *Respite offered with 3 hours on 1 hour off for high impact noise works - Monitoring took place during high impact noise works. Most suitable times for respite negotiated with the school
SH L2: 1 Middleton Avenue, Castle Hill. OOH Night Period. Works occurring included Craneage (not concurrently), and station box fit out works i.e steel cutting and fixing. Traffic along Carrington Road was the dominant noise source. Site noise was noticeable during traffic respite.
