

## Our commitment

Rail Infrastructure Alliance is committed to integrating economic growth, environmental resilience, and social progress as balanced priorities into decision-making at every level of the business and in projects, with the ambition to create long-term value.

## Our approach

The Alliance will approach the project in a manner that maximises positive community impact. We are adopting a resilient and enduring strategic approach to meet and mitigate the existing and emerging challenges for society and our rail infrastructure environment.

## Sustainability Policy in practice

- Create a sense of place for communities, by making a positive and meaningful difference to the health and well-being of the community by genuinely engaging with the community and stakeholders
- Work closely with our customers to achieve optimal and resilient outcomes for users and society
- Decision making to integrate economic, social, environmental and governance aspects, and seek to achieve positive outcomes in each
- Minimise whole of life asset impact by future proofing our assets and responding to climate change
- Facilitate a shift from the practice of mitigating environmental impacts towards enhancing the environment
- Enhance workforce health and wellbeing, inclusion and diversity, and skills and training through professional development and an increased ability to deliver sustainable outcomes
- Source sustainably and ethically, including prioritising local industry participation, social procurement initiatives and a commitment to avoiding modern slavery
- Encourage innovation amongst our delivery teams and supply chain to achieve sustainable outcomes
- Manage all activities ethically, measuring and reporting the sustainability performance of the project
- Govern for sustainability by implementing project systems and processes to ensure the effective and efficient delivery and operation of the project
- Support the UN Sustainable Development Goals
