

## Sydney Gateway Road Project

# Workplace Incident and Emergency Response Plan Extract

## Preamble

John Holland Seymour Whyte (JHSW) has been engaged by Transport for NSW (TFNSW) to design and construct the Sydney Gateway Road Project (the Project). As the JHSW Joint Venture is not incorporated, John Holland Pty Ltd has been granted Environment Protection Licence (EPL) No 21524 by the NSW Environment Protection Authority.

The Workplace Incident and Emergency Response Plan (SGPW-JHSW-NWW-PM-PLN-000702) has been prepared to comply with the requirements under the Protection of the Environment Operations (POEO) Act 1997 Part 5.7A Duty to Prepare and implement Pollution Incident Response Management Plans and POEO (General) Regulation 2009 Part 3A.

A Pollution Incident Response Management Plan must be prepared for all Projects based in NSW that hold an Environment Protection Licence (EPL), or for any project if directed to prepare one by the EPA.

It is a requirement under Clause 98D of the Protection of the Environment Operation Amendment Regulations 2012 that certain sections of the Plan are made publicly available on the website within 14 days after being prepared and approved for issue. The sections are those that cover procedures for contacting the relevant authorities and communicating with the community.

Section 2.23 of the Workplace Incident and Emergency Response Plan meet the requirements of Clause 98D and have been extracted and made available on the John Holland's website

The Authorities must be notified in the order listed below

When notifying authorities that a pollution incident has occurred, the following information must be provided:

1. The time, date, nature, duration and location of the incident
2. The location of the place where pollution is occurring or is likely to occur
3. The nature, the estimated quantity or volume and the concentration of any pollutants involved, if known
4. The circumstances in which the incident occurred (including the cause of the incident, if known)
5. The action taken or proposed to be taken to deal with the incident and any resulting pollution or threatened pollution, if known.

The information required is the information known to the person notifying the incident when the notification is required to be given.

If the information required to be included in a notice of a pollution incident under items 3, 4 and 5 is not known when the initial notification is made but becomes known afterwards, that information must be notified immediately after it becomes known.

## Section 2.23 Notification of Agencies of a Pollution Incident if there is a risk of Material Harm to the Environment

	Authority	Name	Phone Number
1	Emergency Services*	Fire and Rescue NSW Police NSW Ambulance	000
* Only ring 000 if the incident presents an immediate threat to human health or property and requires Emergency Services. If the incident does not require an initial combat agency or once the 000 call has been made, notify as listed below
