Project Summary

The Sydney Gateway Road Project ('the Project') is a new direct high-capacity road connection linking the Sydney motorway network at St Peters interchange, where the M4 and M8 motorways meet, with Sydney Airport's domestic and international terminals and the Port Botany Precinct. John Holland Seymour Whyte have been contracted by Transport for New South Wales to design and construct the works for the Sydney Gateway Road Project. The construction of the project was completed in August 2024. Figure 1 provides an overview of the Project.

Figure 1: Project Overview

Environmental Protection Licence and Reporting Requirements

John Holland Pty Ltd obtained the Environment Protection Licence (EPL No. 21524) from the NSW Environment Protection Authority for the Project on behalf of the John Holland Seymour (JHSW) Joint Venture. The licence is for construction works relating to road construction as defined under Schedule 1 of the *Protection of the Environment Operations Act, 1997* (POEO Act).

The licence describes monitoring and reporting requirements for the Works. The following report details environmental monitoring undertaken during this reporting month conducted in accordance with the EPL.

The EPL can be found by following the link below to the EPA's website: [ViewPOEOLicence.aspx \(nsw.gov.au\)](https://www.epa.nsw.gov.au/viewPOEOLicence.aspx)

Noise and Vibration Monitoring

Vibration

No Vibration monitoring was undertaken during the reporting period, as all works are complete.

Noise

No noise monitoring was undertaken during the reporting period, as all works were complete.

Discharge Water Quality Monitoring

Offsite discharge occurred during September 2024 via Tradewaste agreement only. Discharges were compliant with the requirements of the Tradewaste agreement during September 2024.

Landfill Gas and Gas Accumulation Monitoring

No monthly landfill gas and gas accumulation monitoring was undertaken during the September 2024 monitoring period as all works were complete.
